

# metanous

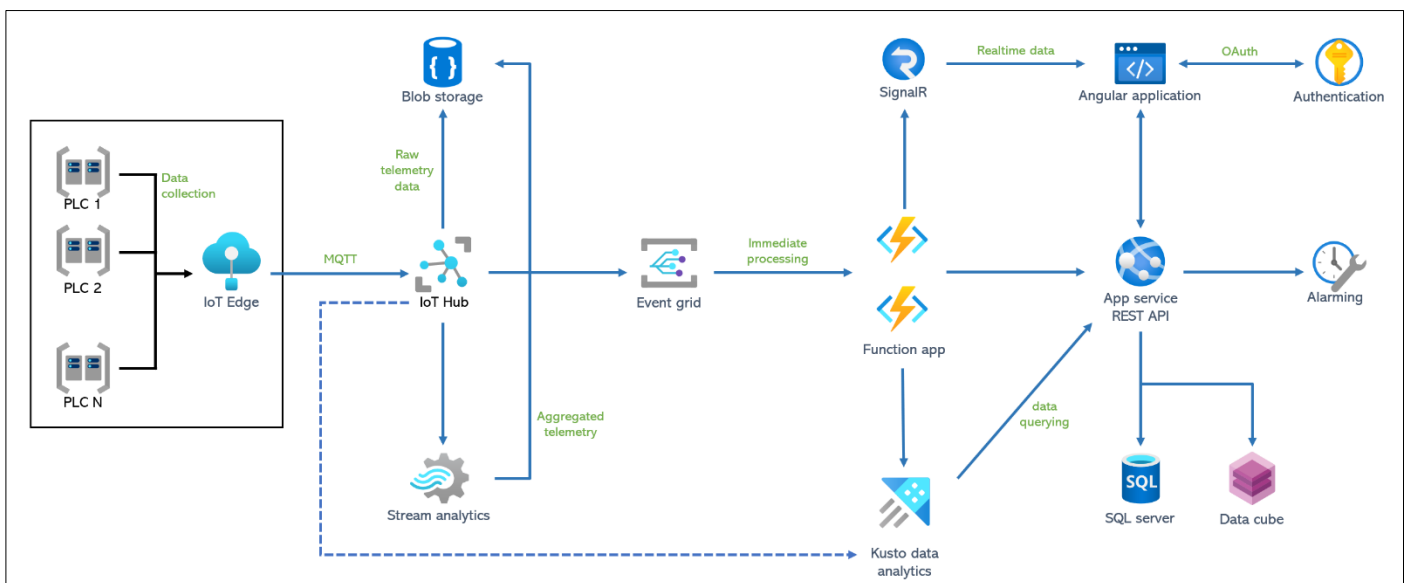

## We deliver advanced and scalable IoT implementations for ambitious enterprises

Empowering and bringing the services you offer with your devices to the next level through a custom, flexible and scalable IoT solution. We provide the insights, advice, knowledge and development for your IoT platform.

### Our services

As experts in the field of IoT, we have extensive experience working with Azure IoT infrastructure. With Azure IoT, you can easily connect, monitor, and manage your IoT devices, allowing you to focus on creating innovative solutions for your business. Our team can help you get the most out of Azure IoT, providing guidance and support on everything from device integration to data analysis. Whether you're looking to develop a new IoT solution from scratch or optimize an existing one, we can help you achieve your goals. Let us put our expertise in IoT to work for you and help drive your business forward.

### Worldwide & secure

We offer secure IoT solutions that are designed to operate at scale, providing reliable and robust connectivity and data security for your global IoT deployment.

### Software development

Our team has a unique combination of software development and IoT skills, allowing us to create innovative solutions that seamlessly integrate hardware and software to solve complex business problems.

### Data analysis

Not only can we assist in gathering your data, more importantly we will work with your team to analyze the data and turn that information into business opportunities
